STUDENT WELLBEING AND ENGAGEMENT POLICY

Policy Statement

Carlton North Primary School is committed to the safety and wellbeing of children and young people. Our school community recognises the importance of, and a responsibility for, ensuring our school is a safe, supportive and enriching environment which respects and fosters the dignity and self-esteem of children and young people, and enables them to thrive in their learning and development.

Carlton North Primary School is committed to providing a child safe, secure and stimulating learning environment where children and young people are safe and feel safe, and their voices are heard about decisions that affect their lives. CNPS is committed to being a child safe organisation that complies with its obligations under the Child Safe Standards. Particular attention will be paid to the cultural safety of Aboriginal children and children from culturally and/or linguistically diverse backgrounds, as well as the safety of children with a disability. Students can reach their full educational potential only when they are happy, healthy and safe, and when there is a positive school culture to engage and support them in their learning. Our school acknowledges that student wellbeing and student learning outcomes are inextricably linked.

It is fundamental to acknowledge that each teacher is a vital source of support and a determinant in the success of their students. The teachers at this school will work collectively to ensure that students feel valued, cared for, have meaningful opportunities to contribute to the school and can effectively engage in their learning. This school recognises the need to be engaging and inclusive, recognising and responding to the diverse needs of our students, accommodating different learning profiles and rates of learning and intervening early to identify and respond to individual student’s needs.

Our School strives to be a learning community where students and teachers can relate well to each other, and where different ideas and viewpoints are valued and respected.

Included with this Student Wellbeing and Engagement Policy is Carlton North Primary School’s Student Wellbeing and Engagement Policy and Procedures – see Appendix A.

Guidelines/Implementation

1. The school will focus on establishing positive and respectful relationships, particularly between teachers and students, and establishing a learning community that provides multiple and diverse opportunities for students to experience success.

2. The school will collaboratively develop and implement a fair and respectful whole-school behaviour management approach.

3. The school will encourage and provide multiple opportunities for parents/careers and members of the broader community to play an active part in the life of the school and the education of the students.

4. The school’s curriculum will include pro-social values and behaviour to enable students to acquire knowledge and skills in this area, value diversity and build a culture of learning, community and engagement.

5. The school will promote active student participation and provide students with a sense of ownership of their environment.

6. The school will support families to engage in their child’s learning and build their capacity as active learners.
7. The school will establish social/emotional and educational support for vulnerable students and monitor and evaluate progress.

8. The school will have processes in place to identify and respond to individual students who require additional assistance and support.

9. The school will build strong community links within the local community to facilitate access to an extended network of community members, professionals and educators who can provide expertise and experience which in turn can build the capacity of our school and our teachers to respond to the needs of students.

Corporal Punishment is prohibited in all Victorian schools. Corporal punishment must NOT be used at CNPS under any circumstances.

Program

1. The curriculum programs run by the school will recognise and respond to the diverse needs of the school's students by:
   • accommodating different learning profiles and rates of learning
   • intervening early to identify and respond to individual student needs

2. The school is committed to the delivery of an inclusive curriculum that ensures all our students have access to a quality education to meet their diverse needs.

To improve educational outcomes for students with disabilities, the following key strategies are in place:
   • providing parents/carers with a learning program that best suits their child’s needs
   • informing students and parents/carers in programming and planning decisions
   • supporting students access to programs that let them pursue achievable goals
   • ensuring the expertise of teachers working in our school is maintained and developed

3. Our school will implement a schoolwide positive behaviour approach that is based on pro-social values, social competencies, incentives and positive peer relationships.

The key focus will be on prevention and early intervention strategies that:
   • define and teach school-wide and classroom expectations
   • establish consistent school-wide and classroom consequences for problem behaviour
   • establish school-wide and classroom processes for early identification of students experiencing academic and/or behaviour difficulty
   • provide school-wide and classroom processes for ongoing collection and use of data for decision-making
   • empower students by creating multiple opportunities for them to take responsibility and be involved in decision-making
   • provide a physical environment conducive to positive behaviours and effective engagement in learning
   • utilise evidence-based interventions, monitored regularly for those students who require support with learning and/or behaviour

4. Involvement in our school by parents and carers helps children achieve the best possible learning outcomes. Parents and carers will be provided with the opportunity to participate in school life, both formally and informally, through School Council, volunteering and staying up to date with news about what is happening in education via our newsletter and community messages through Compass.

5. The school’s strategies to promote pro-social values will be whole-school in focus and include close links with curriculum. The Victorian Curriculum includes the learning area of Personal and Social Learning, which encourages students to work with others, and to take greater responsibility for their
own learning and participation at school. In the context of the Victorian Curriculum, the school curriculum will include pro-social values and behaviours to enable students to acquire knowledge and skills, value diversity and build a culture of learning, community and engagement. Students will engage in a minimum of one fifty-minute session per week on Wellbeing. The wellbeing curriculum will be based on the school values and teaching skills for social emotional development as promoted within KidsMatter and the Schoolwide Positive Behaviour Framework.

6. Student voice/student participation is about valuing people and valuing the learning that results when we engage the capacities and multiple voices in the school. It focuses on realising the leadership potential inherent within all learners. There are five dimensions to student participation:
   1. student involvement in school and community development
   2. students as researchers and co-enquirers
   3. student feedback on teaching and learning
   4. students as peer-tutors
   5. student involvement as a manifestation of inclusion principles

The school promotes active ‘student participation’ as an avenue for improving student outcomes and facilitating school change. Student participation ranges from young people sharing their opinions of problems and potential solutions through Junior School Council to student participation in establishing their own personal and academic goals. It also includes our students sharing their ‘voice’ by collaborating with teachers to actually improve education outcomes, including helping to improve teaching, curriculum and teacher-student relationships and leading to changes in student assessment.

7. The school will support families to engage in their child’s learning and build their capacity as active learners. It provides an environment that welcomes all parents/carers and is responsive to them as partners in learning. The school will ensure that the unique experiences and skills of our students’ families enrich the learning environment and the school community.

The school will create successful partnerships with parents/carers and families by:
- ensuring all parents/carers are aware of the school’s Student Wellbeing and Engagement Policy
- ensuring effective school-to-home and home-to-school communications
- providing volunteer opportunities to enable parents/carers and students to contribute
- involving families with homework and other curriculum-related activities
- involving families as participants in school decision-making
- coordinating resources and services from the community for families, students and the school
- providing opportunities to enhance parenting knowledge and skills

8. Implementing preventative strategies to support positive behaviours is a key part of the Student Engagement and Wellbeing Policy at our school. Prevention strategies the school will deploy include:
- defining and teaching school-wide and classroom expectations
- establishing school-wide and classroom processes for early identification of students experiencing academic and/or behaviour difficulty
- establishing school-wide and classroom processes for the ongoing collection and use of data for decision-making
- empowering students by creating multiple opportunities for them to take responsibility and be involved in decision-making
- providing a physical environment conducive to positive behaviours and effective engagement in learning
- utilising evidence based interventions, monitored regularly for those students who face difficulty with learning and/or behaviour

9. Early Intervention strategies are critical to allow students, teachers and parents the opportunity to resolve any issues as soon as they arise. Early Intervention Strategies will include:
- establishing consistent school-wide and classroom consequences for problem behaviour
- promotion of the use of restorative based practices as the earliest intervention in any conflict situation
• utilising evidence-based interventions, monitored regularly for those students who face difficulty with learning and/or behaviour

9. The school will promote and maintain high levels of student attendance and participation through:
   • articulating high expectations to all members of the school community
   • adopting consistent, rigorous procedures to monitor and record student absences
   • following up student absences promptly and consistently
   • implementing data-driven attendance improvement strategies
   • creating safe, supportive and engaging learning environments where all students experience success through active participation and engagement in purposeful learning
   • providing early identification of, and supportive intervention for, students at risk of non-attendance
   • linking with local community groups and agencies to maximise program and individual support
   • providing a staged response

10. Longitudinal data will be collected regarding frequency and types of welfare issues, so as to measure the success or otherwise of school-based strategies and approaches.
   Some sources of data are:
   • the Attitudes to School Survey data
   • school level report data
   • parent survey data
   • data from case management work with students

11. The school will utilise relevant external student wellbeing support services in order to identify and address the barriers to learning that individual students may be facing.

   Such services to provide support for students and staff include:
   • psychologist for psychological and academic assessment
   • mentors – providing support for ‘at risk’ children
   • Department of Human Services case managers and support workers
   • local parent support groups
   • relevant DET support staff
   • C.A.S.A. [Centre Against Sexual Assault]

Evaluation

This policy will be reviewed annually.

This policy was ratified by School Council on 6 September 2017.
APPENDIX A – Student Engagement Policy and Processes

Whole-School Prevention Statement

At Carlton North Primary School our aim is to develop a robust learning community with positive management and engagement strategies that enable the highest level of student learning outcomes. In terms of student engagement and wellbeing, we strive to:

- build a positive and orderly learning environment with clear student routines and high expectations for behaviour and uniform
- build positive and professional staff-student relationships
- communicate clear expectations about attendance, participation and positive social behaviours
- maintain effective partnerships with key agencies and student support services.

Rights and Responsibilities

1. Guiding Principles

Every member of the Carlton North Primary School community has a right to fully participate in an educational environment that is safe, supportive and inclusive. Everyone deserves to be treated with dignity and respect.

2. Equal Opportunity

We recognise and accept the equality of men and women and people of all races, regardless of their religious or political convictions, their impairments or their age. Under the Equal Opportunity Act, it is unlawful to discriminate against a person based on their age, gender, sexual orientation, occupation, impairments, marital status, parental status, physical features, political beliefs, pregnancy, race, religious beliefs or personal associations.

3. The Charter of Human Rights and Responsibilities

We respect and promote the following four basic principles of human rights and responsibilities: freedom, respect, equality and dignity. When making decisions, we act compatible with human rights and consider each of the following: the right not to be discriminated against; the right to privacy and reputation; the right to freedom of thought, conscience, religion and belief; and cultural rights. Staff, students and parents understand that with human rights comes a concomitant responsibility to respect the human rights of others.

4. Students with Disabilities

As detailed in the Disability Standards for Education, we are committed to making reasonable adjustments to accommodate a student with a disability, balancing the interests of all parties affected including those of the student with the disability, the school, staff and other students.

5. Bullying and Harassment

See our separate Anti-Bullying (including cyber-bullying) and Anti-Harassment Policy.

6. Rights and Responsibilities of the School Community

Our school rules, values, rights and responsibilities are prescribed so that students can enjoy a safe learning environment and actively pursue high levels of academic achievement and social and emotional development, with a view to becoming well-adjusted life-long learners. We are committed to building and maintaining a cooperative and supportive partnership between home and school to achieve positive outcomes for all students.

Shared Expectations
As a school community, we have a shared commitment to creating and maintaining a safe, stimulating and orderly learning environment that ensures all students can engage effectively in their education.

The school values are Trust, Respect, Clear and High Expectations, Responsibility and Knowledge, Discovery, Insight. These values are aligned with the human rights listed above: freedom, respect, equality and dignity.

We bring our school values to life through our behaviours and interactions with each other. We will display and model our school values through behaviours such as the following:

- Attending school on time and arriving promptly to each lesson
- Preparing properly for school and for each lesson
- Meeting appropriate appearance dress standards
- Moving safely through the school environment
- Participating fully in learning activities
- Attentively following instructions
- Listening to each other
- Treating each other with respect, courtesy and fairness
- Valuing the particular individual strengths and differences of others
- Inclusive teaching and learning practices
- Demonstrating and monitoring our own learning progress
- Attempting learning tasks to the best of our ability
- Making appropriate choices, even without supervision

School Actions and Consequences

We encourage and support high levels of student attendance, engagement, learning and positive behaviours through a consistent set of whole-school practices, including the following actions:

- Establishing a safe, secure and inclusive learning environment
- Modeling, teaching and encouraging a set of core school-wide values, rights and responsibilities and shared expectations
- Acknowledging positive behaviours and celebrating effort and achievement
- Discouraging inappropriate behaviours
- Empowering students to be involved in school decision-making and leadership activities
- Applying professional judgment to particular cases and incidents, and understanding individual students, their life circumstances and their particular learning and wellbeing needs
- Identifying students at risk of disengagement from learning in a timely manner
- Monitoring, measuring and communicating progress with students and parents in a timely manner
- Rigorously monitoring, recording and following up student absence in a timely and rigorous manner
- Implementing evidence-based early intervention processes and programs and regularly reviewing their effectiveness to ensure continued relevance
- Using out-of-class support strategies and Student Support Groups for students with at-risk behaviours, to repair relationships and to develop agreed goals and plans around learning and behaviour. In convening Student Support Groups, key stakeholders will be involved as needed, including parents/carers, teachers, principal class officers, counsellors, psychologists and youth workers.
- Connecting to external student support services as appropriate
• Ensuring that students who have displayed unacceptable behaviours towards others can repair the relationship – for example by apologising, completing a reflection form and catching up on missed work.
• Implementing effective and supportive transition programs and processes in and out of the school, including student transitions between different learning areas and levels within the school.

Discipline Procedures – Suspension and Expulsion
Carlton North Primary School will follow the Disciplinary Guidelines as outlined on the DET website.

Suspension is a serious disciplinary measure and is best reserved for incidents when other measures have not produced a satisfactory response. The procedures for suspension are set out in Ministerial Order 625 and detailed further in this guidance.

Grounds and procedures for expulsion are set out in Ministerial Order 625 and detailed further in this guidance.
